

## **LETTER OF INTENT**

### *Concerning*

## **SCIENCE COOPERATION WITH THE 4<sup>th</sup> GENERATION**

## **SYNCHROTRON LIGHT ACCELERATOR**

**Purpose:** The Korea Basic Science Institute intends to collaborate with excellent researchers from Southeast Asia on the 4<sup>th</sup> generation synchrotron light accelerator. We have promoted to build 4<sup>th</sup> generation synchrotron light accelerator in Chungcheongbuk-do, South Korea. We are pursuing qualitative growth of research through joint R&D with researchers from many countries. The governor of Chungcheongbuk-do is also supporting a lot of effort and investment for our research cooperation with many leading foreign researchers.

Recognizing the importance of the principles of equality and mutual benefits.

### **In order to:**

- Improve international Scientific Cooperation
- Strengthen synchrotron light accelerator's research and initiate new fields of investigation
- Prepare researchers to pursue joint R&D studies in Asia
- Opening to respond to increasing demand for global research
- Support for joint utilization of 4<sup>th</sup> synchrotron light accelerator in Chungcheongbuk-do.

Whereas, Naresuan University is concerned with the field of synchrotron light source and functions.

IN WITNESS WHEREOF the parties have signed this Letter of Intent

Signed on April 23, 2020

Signed by : Hyung-shik Shin

Name : Dr. Hyung-Shik Shin

Position : President

Institution : Korea Basic Science Institute

Address : 169-148, Gwahak-ro, Yuseong-gu, Daejeon, Korea [34133]

Signed by : Kanchana Ngourungsi

Name : Honorary Professor Dr. Kanchana Ngourungsi

Position : President

Institution : Naresuan University

Address : 99 Moo 9, Thapo Sub District, Muang, Phitsanulok, Thailand, 65000
